

California OES Weather Threat Briefing

Friday, July 23, 2021
9:00 AM PDT

Day 1 (Friday): Elevated fire weather conditions for many mountains and foothills due to gusty winds and ongoing very dry weather.

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

07/23/21 - 07/29/21

Friday-Thursday

- Fire weather conditions remain elevated through the weekend, especially across the foothills and mountains where locally gusty winds are likely each afternoon and evening
- Isolated showers and thunderstorms remain possible each day across southeast California, spreading back over the Sierra this weekend. Some storms on Sunday and Monday could produce locally heavy rainfall, leading to a slight chance for flash flooding.
- Low to moderate heat risk impacts persist across the Central Valley and into interior southern and northern California locations into the weekend
